Indications.
WASHINGTON, April 11.—For Ohio Valley and Tennessee: Generally fair weather, preceded in upper Ohio Valley by local showers; winds generally from southwest to northwest; higher barometer; slight changes in temperature and, except in extreme western portion, slightly colder.

CAUTION!

There is much downright cheating in clothing, and more than in any other class of merchandise; and as much bungling from ignorance and want of technical skill as in any sort of manufacture.

The makers who put together clothing in custom shape are few.

The retailers who handle properly-made garments are few.

The manufacturers who supply consumers direct from their factory are exceptions.

WE ARE THE EXCEPTIONS.

There is a wide difference between properly-made garments, at a low price, and what is termed in business "shop-made."

The former we make and retail. The latter is what we have to contend with in our every day business.

This is why we guarantee results from comparisons, and privilege every customer to return for exchange or refundment of money any purchase proving unsatisfactory from whatever cause, if not soiled.

The exterior appearance of garments, when bright and new, do much to attract the eye and affect their sale, but are of the slightest significance in calculating wear and tear, making and wearing.

Is it to be wondered at, then, that consumers are so often taken in by purchasing outfits from retail dealers who buy their stocks first from one and then another, till perhaps their stocks are made up from a dozen or more makers?

Many of these retailers doubtless intend to deal honestly and squarely, but the question arises, how are they to know the interior of their clothing?

With us, we handle the cloth in the piece; know exactly how much cloth is in the suit; select the trimmings ourselves, and give it to makers in our employ who have skillful reputation, and, when finished, we know just exactly what the suit is, both external and internal.

Our recommendation upon any article of wearing apparel is based upon what we know of our own made clothing. All we ask is unbiased comparisons of quality and price.

England vs. Russia.
LONDON, April 11.—Everything indicates that a grave position has been assumed by the English government toward Russia. The ministry, it appears, have been coerced by the aggressiveness of public opinion to a hard, but evidently determined attitude of pugnacity. At first Mr. Gladstone satisfied himself with demanding of Russia an explanation of General Khomoff's advance upon the Afghans. He felt sure, it is stated, that Russia was sincerely desirous of peace, and would discountenance the action of the commander no matter how thoroughly he might have represented the helio policy of the St. Petersburg war party. But when the czar answered that he would explain to England as soon as General Khomoff wrote him, the British premier was trifling to gain time. England appointed her part of the commission to adjust Afghan's frontier nearly a year ago, and almost all of the Russian advance has been made in the interval, hence it is difficult to believe that Russia will seriously attempt to rush an amicable understanding.

M. De Geira, the Russian Prime Minister, through Baron De Staal, has offered to abandon the Russian proposal to extend the line of debatable boundary so as to include the Pamir Mountains and recur to the line suggested in the lesser proposal. This offer on the part of the Russian premier, while containing a concession, is considered to be really a modified refusal. General Khomoff should take, and gain the line, while within the Pamir Mountains, it would hardly be accepted by the English statesmen, although the proposal could be made to appear, to the British public, as a retreat on the part of Russia. As Earl Granville's demand for the withdrawal of the Russian troops was telegraphed to Sir Edward Thornton, at St. Petersburg, after the receipt of M. De Geira's proposal, it is inferred that the Russian premier's overture has not met with acceptance, and has made no impression upon the English government. Both Russia and England are busily engaged in corresponding with other powers, and are actively courting alliances. If the English negotiations with Turkey succeed the most important immediate results will be the opening of the Dardanelles to the British fleet.

Condition of General Grant.
NEW YORK, April 11.—A. M.—General Grant dined comfortably until 1 a. m., when he became restless and suffered from pain in the chest. The usual local applications were made, giving partial relief. At 2 a. m., however, administration of anodyne was demanded. Since that time he has been dozing and sleeping by turns. Pulse 68, temperature 99.5. (Signed) S. H. DODGINS.

NEW YORK, April 11.—Bulletin No. 1, 5:30 p. m.—General Grant has been very quiet all afternoon. He has been sitting in his room surrounded by and conversing with his family for some time. Pulse 68, temperature normal; has taken nourishment as usual. (Signed) J. H. DODGINS.

NEW YORK, April 11.—The rumors that General Grant had been delirious are denied. No apprehension is felt of a critical result today or tonight.

NEW YORK, April 11.—Shortly after 10 o'clock Senator Chaffee and General Badeau left General Grant's house. Chaffee said: "General is now comfortable and will probably pass an easy night." At 10:30 the house was closed for the night.

John Sherman at Cincinnati.
CINCINNATI, April 11.—Senator John Sherman, who is an honorary member of the Cincinnati Chamber of Commerce, visited that body today and made a brief speech. He congratulated the members upon the prospects of a slow but sure return of better times. "The recent change of administration in our government," he said, though it would surprise some to hear him say so, "was not an unmixed evil." He believed the broad of the present administration meant to conduct the affairs of the government honestly and on a business basis. [Applause.] In closing he said we needed more business and less politics, and that it was the duty of business men to see to it that all affairs—National, State and city governments—were conducted with honesty and fidelity.

Colored Men and the President.
WASHINGTON, April 11.—A committee of the colored citizens of the District of Columbia waited on the President today, and after inviting him to review the procession of colored societies on Emancipation Day, presented an address which embodied the following resolution: Resolved, That, in the name of 70,000 colored citizens, we ask from the Administration recognition according to merit; equal rights and advantages of education throughout the United States. The president responded briefly, and promised the colored people a just recognition of their rights. He said he would review their procession and, if possible, visit their entertainment and exercises in the evening.

Rich Gold Fields Discovered.
EAGLE, Tex., April 11.—The news was received here today of the discovery of a rich gold field in the Santa Rosa mountains, about a hundred miles west from Santa Rosa, Mexico. The discovery was made by the Davis brothers, who were working a profitable silver mine in the same range, but have now abandoned the silver mines and located claims in the gold fields. The gold lies in quartz, and is described by old Californians as the richest they ever saw.

Assignment.
NEW YORK, April 11.—Dorrence Bros., jewelry, assigned; preference, \$17,269.

IT IS A SETTLED FACT

THAT SPRINGFIELD WILL HAVE A RISE BALL CLUB.

And a Good One It Will Be—A List of the Players, and the Positions They Will Occupy—Several Familiar Faces Among Them—The Work of Improving the Grounds Now in Progress—The Season to Open Wednesday With the Indianapolis Club—The Detroit Club Friday and Saturday.

During the past week these ball matters have been progressing rapidly, and now it may be said that the season is once more upon us. On Wednesday of this week the season will open, and the American Association Club of Indianapolis will cross bats with the home team. The Indianapolis club has made a brilliant start, having only been defeated once this season, and lovers of the sport will have an opportunity of seeing some fine work on the diamond. The home club is now completed and Mr. Harry C. Fisher has kindly furnished the names of the members. Patz and Kelly, the battery of the Saginaw, last season, will occupy the points as first battery. These two gentlemen, played with the Saginaw all last season, and won the championship of the Northwestern League for that club. The second battery will be Galvin and Cady, of the St. Paul and Muskegon last season, also members of the Northwestern League. Arundel and Carroll will also form the third battery. Arundel, it will be remembered, played with the club in this city last season. Carroll, his catcher, played with the Altoona Union, of Altoona, Pa., the early part of last season, and towards the close of the season caught for the New York League team. He is a fine catcher, a strong batter, and can play in the field or at third base. There is not one of these six men who cannot do fine work both at the bat and in the field. Fisher, the manager of the club, will occupy first base; he covered so admirably with last season's club in this city. "Lively" Joe Arner, who became such a favorite here last year, will again take his position at second base. Everybody remembers Joe as one of the most earnest players on the club, combining with his playing qualities, those of a perfect gentleman. Frank Peckinpah needs no introduction to lovers of base ball in Springfield, and they will all be glad to learn that he will occupy his old position at third base. For a short stop Mr. Fisher has secured W. E. Baker, who played last season with the Franklin, Pennsylvania, club, of the Iron and Oil League. Baker has a record that is hard to beat, and but few of the League or American Association short stops can boast of a better one. Mr. Baker arrived here last evening. He is a man of fine physique, a hard hitter, and a perfect gentleman. Huey, who also will be remembered by the base ball public. He played right field with the Hamiltons, last season, and at the close, his record showed him to be the strongest batter in the Ohio League. He has also been secured and will catch everything that comes in his way in right field. The other two fielders will be made up of one of the batteries, while the other occupies the points. This is undoubtedly the strongest nine Springfield has had since the famous Champion City of 1877. It may be a little premature but it looks very much as if Springfield will again carry off the pennant this season.

Men are now at work fixing up the grounds and improving them. The whole field has been plowed over, the low places in left field filled up, and a heavy roller is now being run over to level the grounds. It was at first Mr. Fisher's determination to change the location of the diamond, the grand stand, and the entrances, but this has been abandoned, and they will be left as they were last season, at least for the present.

The suits will be of the same material and color as those of last year, white pants and jackets, and brown stockings. Later in the season new suits will be furnished, and a change will probably be made from brown to maroon stockings and maroon trimmings. Mr. Fisher has been busy for several days past in soliciting subscriptions, and has met with unexpected success, notwithstanding the fact that last year's club "came out at the small end of the horn" financially. There seems to be a livelier interest in the sport this year, and with good towns in the league there is no reason why it should not be a success. It is not yet definitely known which of the two towns, Columbus or Zanesville, will form the eighth club. This matter will have to be settled one way or the other by the middle of next week, as the schedule committee meets in this city next Thursday to make out a schedule of championship games. If another member of the League is not secured, one of the clubs now composing it will have to drop out, as there must be an even number of clubs in the League.

The new players have all been notified to report for duty by Monday or Tuesday of this week. On Friday and Saturday of this week the famous League team from Detroit will play the home club. This will be the first appearance of a League team here since 1877.

War Feeling in Russia.
ST. PETERSBURG, April 11.—The war feeling here is overwhelmingly strong. The czar appeared at the theater last evening. The audience arose when they saw the czar and shook the building with an ovation of applause.

Suicide of R. C. Wilson.
CLEVELAND, April 11.—Robert Wilson, treasurer of Washington township, Hancock county, Ohio, shot himself this morning, in the breast and will die. He owned a large flouring mill and was highly respected.
